mgregersen.dk

Relevant experience:

Nov 2019 - Apr 2020	Fullstack Ruby-on-Rails Developer	Reva Media ApS
	Responsible for managing the other developers, prioritizing tasks as well as developing and managing big-picture solutions for things as Test-suite, Continus Integration, Deployment and similar	
Oct 2018 - Oct 2019	Self-employed	Growthor Media IVS
	Managed a small marketing agency, primarily focusing on Facebook Ads in the affiliate niche, supplemented with ad-hoc programming clients.	
Oct 2017 - Oct 2018	Fullstack PHP Developer	Dinero (Visma ApS)
	Responsible for the application 'frontpage', meaning dinero.dk outside the scope of the core accounting app.	
Dec 2016 - Oct 2017	Freelance	Various
	Contract work for multiple clients, notably Elmcroft.	
Aug 2016 - Dec 2016	CTO	SpaConsult A/S
	Acted as CTO in charge of maintaining, developing and optimizing the core product: A (big) Moodle Plugin for e-learning, whilst juggling the workload of 2 student employees.	

Aug 2015 - July 2016

IT-employee

Jydsk Emblem Fabrik A/S

Working IT at JEF.dk where I was responsible for web development, SEO, C5 (MS Dynamics) and inhouse support.

Before accepting the full-time position I was a student assistant for 7 months.

Relevant projects:

<https://findboliger.dk> - The primary site I was working on while working at Reva Media. Helped with projects at the scope of merging husvild.dk into findboliger.dk while having minimal SEO drawbacks, and increasing overall traffic.

<https://www.reneerouleau.com/> - As part of a small team of 3 I was in charge of structuring the backend of a new, custom Shopify Plus theme, using the templating language Liquid (based on Ruby).

Education:

2012-2015

BA. in Science of Informations

Aalborg University

I finished my bachelor in communications/science of information in summer 2015, spending my 5th semester studying abroad at UCSD. Scored top-grade in my bachelor project.

Skills:

PHP, Ruby, HTML5, CSS3, JavaScript, ES6, jQuery

WordPress, Ruby on Rails, Twitter Bootstrap, SASS, SCSS, LESS, Foundation, Angular 2, React, Node, Express, Gatsby

Mailchimp, Enquire CRM, HubSpot, Browser API, Facebook, OmniAuth, inMobile, ActiveCampaign, Git, DevOps, Linux system administration, VirtualMachine, VS Code, SublimeText, Atom, Heroku, POSTman, Vagrant, Docker, Management, SQLite, MySQL, PostgreSQL, MongoDB, NoSQL

Additional Information:

Former co-owner of Growthor Media (<https://growthor.dk>) an online marketing agency, dedicated to build and maintain an online presence for our clients, amongst other coding out their websites.

Github Profile: <https://github.com/aarhusgregeresen>

Did the Camino Francés in fall of 2019.
